Summary of reasons for decision:

'4d0d01c0-ac57-4dc6-91c0-bf69d77a708a' is a recording of what appears to be traffic camera footage. The footage depicts a motorcyclist violently colliding with a forklift truck. The rider lies motionless on the road at the end of the video and could well be dead. The video is likely to greatly shock and disturb children and teenagers in particular. Footage like this is also likely to have an eventual effect of inuring younger viewers who are still developing emotionally and cognitively, to other real-life suffering more generally. While many adults are also likely to be disturbed by the footage, it would not be reasonable to classify the publication as objectionable given the incidental nature of the recording. Adults are also expected to have the maturity and experience to appropriately contextualise

potentially distressing material. The Classification Office has considered the effects of the New Zealand Bill of Rights Act 1990 on the application of all the classification criteria. A restriction on the publication's availability to adults places a limit on the right to freedom of expression, but this is a reasonable and justifiable limitation given the risk of injury to the public good.
